

# SAGE 300 CONNECTOR

Realisable's Sage 300 Connector provides bi-directional integration allowing you to integrate virtually any on-premise or cloud application with Sage 300.

## THE PROBLEM

BRITTLE  
DEVELOPMENT

TIME CONSUMING  
INTEGRATION

INFLEXIBLE  
INTEGRATION

COSTLY  
DEVELOPMENT

## THE SOLUTION

Sage 300 customers around the world use IMan to simplify their integration challenges and make their other applications run smoothly with Sage 300.

An integrated Sage 300 solution improves efficiency and reduces the number of manual tasks in your business.

## WHAT CAN IMAN INTEGRATE?

- eCommerce – Magento, WooCommerce, Shopify, ZenCart, OpenCart, BigCommerce, marketplaces such as Amazon, EBay, Jet.com, Walmart, and custom developed solutions.
- Purchase & procurement and EDI.
- Manufacturing Systems.
- Distribution, 3PL, WMS, Shipping Solutions.
- Timesheet, billing and job costing.
- Concur Expenses.
- Point of sale – integrating a variety of POS systems integrating with the G/L, A/R and cashbook modules.
- Business process automation – Order & payment gateway processing; intercompany transactions; back-to-back sales & purchase order processing; time & billing approval.
- Banking transactions and reconciliation.
- Data feeds/automated data capture.

## THE SOLUTION - ROBUST

Sage 300 is an integral part of your business so performance and integration are critical. IMan is built upon a stable platform and a Windows service based (always-on) architecture which can handle deployments processing many 1000s of transactions per day.

---

---

## KEY FEATURES

- Automated bi-directional integration between Sage 300 and other applications removes the need for manual processing.
- IMan can be customised to transform data to match any business process.
- 70+ integration points with Sage 300 covering all modules and support for 3rd party applications.
- As our connector works through the views, errors and warnings are consistent with those generated when entering data manually.
- Seamless support for Sage 300's optional fields, full tax support, multi-currency, PJC integration, and serial & lot numbers.
