

Realisable IMan

IMan is a highly versatile configuration-based integration platform for

Sage 300
Sage 200
Sage 50
Sage Intacct
Sage X3
Sage CRM

Sage

IMan's deep connectivity with Sage products ensures that you can integrate your operational back- and front-end solution with confidence.

Our visual designer requires no code, allowing you to automate your business processes quickly and easily.

Access world-class documentation, training materials and online support to customise with enterprise-level functionality without the complexity.

Our customers around the world use IMan to simplify their integration challenges and automate their order fulfilment processes. Improve efficiency and reduce the number of manual tasks in your business with IMan.

BigCommerce connector

Our **smart BigCommerce connector** provides bidirectional integration for ecommerce stores with your ERP or accounting solution.

Seamless data integration

IMan's flexibility means custom and business-specific processes can be included into any data flow.

Our BigCommerce connector provides bidirectional integration of master data such as Customer Accounts for B2B integration, Items and Item Attributes, Inventory and Pricing to and from your ERP/Accounting or CRM solution.

- Support for multi-stores
- Order Download
- Upload shipment or consignment data from either Sage or your shipping solution

- Upload and download product data to and from your BigCommerce store, including product attributes
- Upload and download customer records to and from Sage
- Update available inventory from Sage to BigCommerce
- Update customer/trade specific pricing from Sage to BigCommerce
